Profile

O github github.com/aaronschif

Education

Kansas State University Studied computer science. Worked in many teams. Learned many December 2016 Grad programming languages, patterns, and techniques. Favorite courses include Game Engine Design, Concurrent Software Systems, and Computer Architecture.

3.1 Overall GPA

Experience

KSU Webteam Developed internet applications for KSU. Worked on an agile sept. 2013 - May 2016 team. I was responsible for training new employees in Django

and Python.

Network Development Group An internship using Django and Python to create interactive

May 2016 - Present learning tools. Wrote code for a profit producing website

where security and stability are most important.

KSU Robotics Competition Worked on a team to compete in the Mercury Robotics

Team Competition. Developed, worked with, and managed other team March 2015 - Present members to create control code for robot systems and realtime

network interfaces for an embedded system.

4th place Worked with my team to prove our programming abilities.

ACM Programming Contest Competed to complete the most programming brain teasers with

December 2015 the fewest mistakes in the allotted time.

dgitprompt Built with D, C, Lua, and libgit. Displays git information in

a shell independent manner for your prompt. Licensed under

MIT license.

github.com/aaronschif/dgitprompt

Eagle Scout Participated in community projects. Learned leadership and

teamwork.

Skills

Languages Python, D, C, C++, C#, Java, Bash, HTML, CSS, Sass,

JavaScript, Node.js, Markdown, Lua, Perl

Frameworks Django, Linux, Unix, JQuery, Twitter Bootstrap, GTK, MySQL,

Apache, Nginx

Techniques Ajax, Responsive Design, Unit Testing,

Test Driven Development, Multiprogramming,

Continuous Integration, Version Control

Programs Git, Vagrant, Jenkins, py.test
